Engineer In Charge  
Radio Station WCSR  
Smith College  
Northampton, Mass.

Dear Sir:

I would like to report hearing a portion of your school transmission last night, Friday, September 30th, 1949 at 10:16PM EST.

WCSR was heard quite well, signal was strong, steady, with infrequent interference from WICC in Conn., but was mild and did not mar very much of your readability. WCSR was heard on a RME84 receiver with a whip vertical antenna.

Listed below are some notes made by me of your transmission, won't you please check them with your station log? If correct, a verification of my reception of your station will be very much welcomed by me. Return postage is enclosed. My log follows:-

PM EST

10:16.....A program of symphony music was now being heard, played by the Philadelphia Symphony orchestra under the direction of Leopold Stokowski.

10:33.....Woman announcer announced the next selection to be played which was Violin Concerto #1, in G Minor, which was played by the San Francisco Orchestra.

10:55.....An announcement made for the Coffee Shop, and then station's sign off announcement was made, the last name being Perkins, missed the first ~~two~~ due to interference. Correct time was given, followed by announcing station will return at 8:00 to the air.

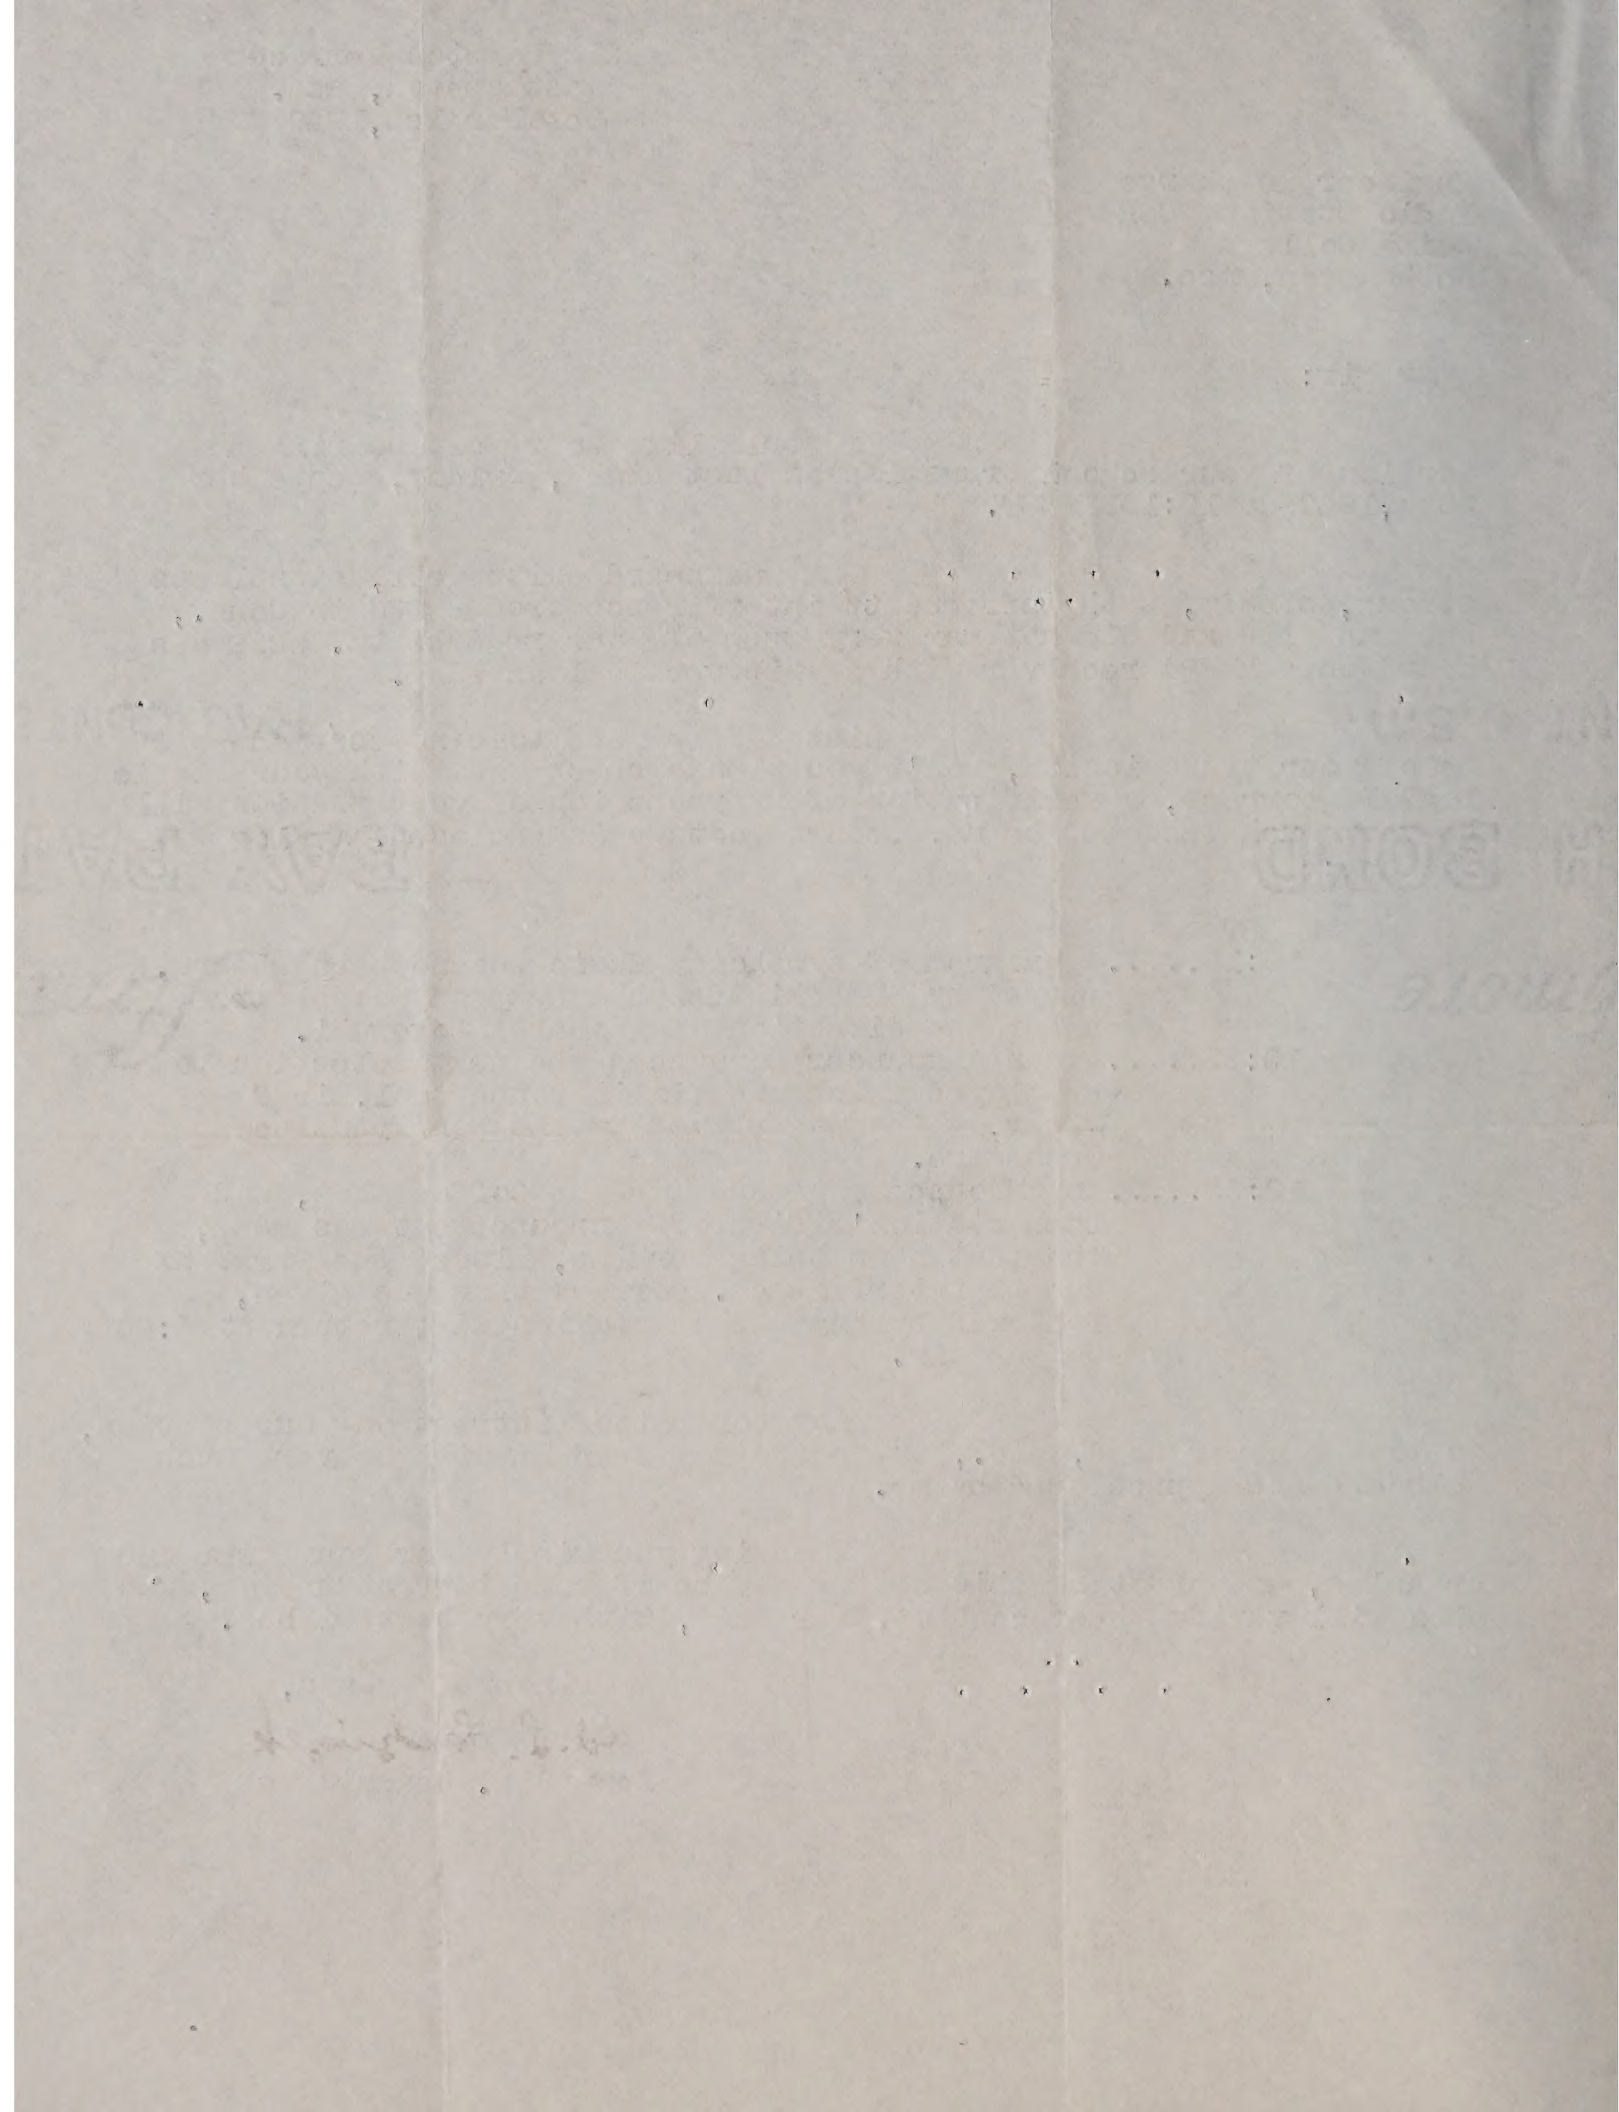

Any comments of interest on your station, as to the power used, etc., which you may send me will be very much welcomed and appreciated by me.

Thanking you kindly for your time and troubles, and trusting this letter may be of some interest to you, and also will verify the reception, I remain, with very best wishes.

Sincerely yours,

*Ed. L. Lendzioszek*

Direct In Charge  
Radio Station WGBR  
Salem College  
Hampton, Mass.

Dear Sir:

I would like to report hearing a portion of your school transmission last night, Friday, September 30th, 1949 at 10:16PM EST.

WGBR was heard quite well, signal was strong, steady, with infrequent interference from WIOG in Conn., but was wild and did not carry very much of your readability. WGBR was heard on a REEB receiver with a whip vertical antenna.

Listed below are some notes made by me of your transmission, won't you please check them with your station log? If correct, a verification of my reception of your station will be very much welcomed by me. Return postage is enclosed. My log follows:-

PM EST

- 10:13....A program of symphony music was now being heard, played by the Philadelphia Symphony Orchestra under the direction of Leopold Stokowski.
- 10:33....Human announcer announced the next selection to be played which was Violin Concerto, #1, in G Minor, which was played by the San Francisco Orchestra.
- 10:55....An announcement made for the Coffee Shop, and then station's sign off announcement was made, the last name being Perkins, missed the first in due to interference. Correct time was given, followed by announcing station will return at 3:00 to the air.

Any comments of interest on your station, as to the power used, etc., which you may send me will be very much welcomed and appreciated by me.

Thanking you kindly for your time and troubles, and trusting this letter may be of some interest to you, and also will verify the reception, I remain, with very best wishes.

Sincerely yours,
